of the project that a	r, primary contractor, civil o re seismic retrofitting comp ouilding department shall re	onents, as defined by Rev	enue and Taxatio	on Code section 74.5(b)(2	2). Upon completion
For purposes of sec	ction 74.5(b):				
(1) "Seismic retrofit	ting components" means se	eismic retrofitting improven	nents and improve	ements utilizing earthqual	ke hazard mitigation

- (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix A of the International Existing Building Code of the International Code Council.
- (3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 1.1.1) of Title 24 of the California Building Code and similar seismic provisions in the International Building Code.
